Start of project

Add earlier work from Danry

datasets.py > Unify Validation and Training datasets

transforms.py + loss.py + augmentations.py + AdvAttackOnYolo.ipynb(AAOY) > Fix transforms for use with AAOY notebook and the notebook

AAOY > Edited to work with dataset, objects are now being detected in non-attacked images but are seemingly shifted and most attacked images are blank.

Danry: run.py > setup script for Sharcnet
